A creative approach to grab attention.

Site Wallpaper offers an immediate positive impact and fully trackable results. Wallpaper is purchased in 3-day increments and is served to BOTH sites for a total investment of \$800.

Your message is available 24/7 for the entire 3 days purchased; dramatically driving traffic to your site or Facebook page. This very powerful marketing tool is likely more affordable than any print publication campaign you may have tried in the past.

And as always, ad design is included!

NEW ON MOBILE! This product not only includes a stronger presence for our desktop viewers, but is partnered with a new mobile presence as well. With our mobile audience growing substantially month after month - *this adds even more value!*
